## SOUND BLASTER

Sound Blaster™ is the sound standard in PC computing. Sound Blaster delivers all the audio power built into thousands of games and applications. With specifications that form the basis for Microsoft® Windows™ 3.1 multimedia sound extensions. The PC world is listening to Sound Blaster.

**\$149.95**

- ✗ 11-voice FM music synthesizer.
- ✗ 8-bit digitized voice channel input and output.
- ✗ Joystick port.
- ✗ Built-in power amplifier.
- ✗ MIDI interface.
- ✗ Easily installed into any 8-bit slot.
- ✗ Windows 3.1 and OS/2\* 2.0 compatible.
- ✗ Bundled software included.

**Available for PS/2—Sound Blaster MCV  
(Micro Channel Version) \$249.95.  
Does not include power amplifier.**

## SOUND BLASTER PRO BASIC

All the features of the top-of-the-line Sound Blaster Pro, including stereo audio but without MIDI adapter and sequencer software.

This is the cost-effective multimedia sound solution for those who don't need MIDI capability right now. The Sound Blaster series of audio boards is supported by more DOS and Windows developers than any other PC sound board. The Pro Basic is upgradable to a Sound Blaster Pro with the Creative Labs MIDI Kit.

**\$229.95**

- ✗ Top-quality sampling with 8-bit stereo digitized voice channel—4-44.1 KHz sampling rate.
- ✗ 4-operator, 20-voice OPL-3 stereo FM music synthesizer.
- ✗ Digital-analog mixer and amp with programmable volume controls for all sources.
- ✗ CD-ROM interface for Creative Labs or Panasonic® CD-ROM drives.
- ✗ Multiple audio inputs and stereo output.
- ✗ Bundled software: MMPLAY presentation package, speech synthesizer, Intelligent Organ, voice editor, and more.
- ✗ Easily installed into any 16-bit slot.
- ✗ Windows 3.1, OS/2\* 2.0, and MPC compatible.

**Available for PS/2—Sound Blaster Pro MCV  
(Micro Channel Version) \$399.95.  
Does not include CD-ROM interface.**

## SOUND BLASTER PRO

More features and more versatility make Sound Blaster Pro the stereo multimedia sound board of choice. It's the perfect companion for all the leading new sound-enhanced applications,

presentation packages, and multimedia authoring tools. MIDI adapter and sequencer software come as standard components.

**\$299.95**

- ✗ Top-quality sampling with 8-bit stereo digitized voice channel—4-44.1 KHz sampling rate.
- ✗ 4-operator, 20-voice OPL-3 stereo FM music synthesizer.
- ✗ Digital-analog mixer and amp with programmable volume controls for all sources.
- ✗ CD-ROM interface for Creative Labs or Panasonic® CD-ROM drives.
- ✗ Multiple audio inputs and stereo output.
- ✗ Bundled software: MMPLAY presentation package, speech synthesizer, Intelligent Organ, voice editor, and more.
- ✗ MIDI adapter and sequencer software included.
- ✗ Easily installed into any 16-bit slot.
- ✗ Windows 3.1, OS/2\* 2.0, and MPC compatible.

## PORT BLASTER

A portable solution for "on-the-road" business or multimedia presentations. Now anyone with a parallel port on their laptop or PC can get all the benefits of the popular Sound Blaster! Just attach Port Blaster™ to your laptop or desktop and you'll have high-quality, "ready-to-go" sound.

- ✖ Enhanced 4-operator, 20-voice, OPL-3 stereo FM music synthesizer.
- ✖ 8-bit voice sampling and stereo playback.
- ✖ Stereo digital/analog mixer for all audio sources.
- ✖ Built-in power amplifier and speaker.
- ✖ MIDI interface.
- ✖ Windows 3.1 compatible.
- ✖ Sound Blaster emulation.
- ✖ Bundled software included.

**\$199.95**

## MIDI BLASTER

Now, for the first time, you can have professional quality sampled MIDI sound for under \$300! MIDI Blaster™ is the perfect complement to Sound Blaster or Sound Blaster Pro (or any add-in sound card or device which provides a MIDI connector) for amateur and professional music composition and performance,

business, education and multimedia presentations. Finally . . . a cost-effective, general MIDI device that brings professional, high-quality sampled sound to a variety of applications.

- ✖ Adheres to General MIDI specification with 16 MIDI channels.
- ✖ Offers authentic PCM wave-sampled instrument sounds.
- ✖ 20 instrument polyphony and presets that include 128 sounds, 33 effects, 55 drums.
- ✖ Uses wave-table frequency domain compression – Roland Sound Canvas-compatible.
- ✖ Connectors for headphones, RCA in/out, PC in, and MIDI in/out.
- ✖ Bundled software included.

**\$299.95**

## SOUND BLASTER CD-ROM UPGRADE KIT

For owners of Sound Blaster Pro, here's everything you need to expand your general computing horizons into the realm of multimedia, including Creative Labs internal CD-ROM drive, Microsoft Windows 3.1, and a library of useful, creative CD-ROM software. The high-performance drive features a front-

panel headphone jack and volume control for playback of audio CDs.

- ✖ High-performance Creative Labs CD-ROM drive.
  - Exceeds MPC specifications
  - 540 MB storage
  - 150 KB data transfer rate
  - 64 KB RAM buffer
  - 390 ms access time
- ✖ Bundled creativity and productivity software, including Microsoft Windows 3.1, Bookshelf®, Sherlock Holmes Consulting Detective™, Creative Sounds, and more.
- ✖ Windows 3.1 and MPC compatible.

**\$549.95** Internal CD-ROM drive

## SOUND BLASTER MULTIMEDIA STARTER KIT

Here's everything you need to begin multimedia computing—CD-ROM drive, Microsoft Bookshelf software, and the versatile, best-selling Sound Blaster Pro stereo PC audio card. Compatible with all the new multimedia software titles—and with thousands of existing games and other programs.

- ✖ Sound Blaster Pro sound card features 4-operator, 20-voice OPL-3 stereo FM music synthesizer with stereo 8-bit digitized voice channel, mixer, and amplifier.
- ✖ High-performance Creative Labs CD-ROM drive. Exceeds MPC specifications  
540 MB storage  
150 KB data transfer rate  
64 KB RAM buffer  
390 ms access time
- ✖ Bundled software: Microsoft Bookshelf reference library, sound and graphics integrator, speech synthesizer, voice editor, Intelligent Organ, and more.
- ✖ Compatible with thousands of Sound Blaster and Ad Lib based games and other programs.
- ✖ Windows 3.1, OS/2\* 2.0, and MPC compatible.

**\$649.95** Internal CD-ROM drive

**\$749.95** External CD-ROM drive

## SOUND BLASTER MULTIMEDIA UPGRADE KIT

Transform your ordinary computer into a Multimedia PC. Unlock the power in all the newest, most dynamic applications and games, including CD-ROM-based software. And make your computing experience more exciting, more creative, more productive than ever before, with the Sound Blaster Multimedia Upgrade Kit.

Combining Sound Blaster Pro with a CD-ROM drive and a rich array of CD-ROM software, the Multimedia Upgrade Kit connects your computer to the PC audio standard—to thousands of the best programs, and to the multimedia revolution in personal computing.

- ✖ Sound Blaster Pro sound card features 4-operator, 20-voice OPL-3 stereo FM music synthesizer, 8-bit stereo digitized voice channel, mixer and amplifier.
- ✖ MIDI interface, adapter and sequencer software (interface doubles as joystick port).
- ✖ High-performance Creative Labs CD-ROM drive. Exceeds MPC specifications  
540 MB storage  
150 KB data transfer rate  
64 KB RAM buffer  
390 ms access time
- ✖ Bundled creativity and productivity software, including Microsoft Windows 3.1, Bookshelf, Multimedia Works, MacroMind® Action!™, Authorware® Star™, Tempra™, Sherlock Holmes Consulting Detective, and more.
- ✖ Compatible with thousands of Sound Blaster and Ad Lib based programs.
- ✖ Windows 3.1, OS/2\* 2.0, and MPC compatible.

**\$799.95** Internal CD-ROM drive

**\$899.95** External CD-ROM drive

## SOUND BLASTER 16 ASP

Get the full power of 16-bit professional-quality sound! Sound Blaster 16 ASP™ offers affordable CD-quality stereo sound for a variety of applications. From boardroom presentations to point-of-purchase displays. The state-of-the-art Sound Blaster 16 ASP uses a programmable Advanced Signal Processor for high speed and digital signal processing, speech recognition, special effects and real-time hardware compression and decompression.

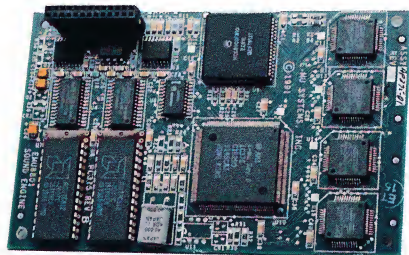

**\$349.95**

- ✕ 8-bit and 16-bit stereo sampling and playback from 5KHz to 44.1KHz.
- ✕ Enhanced 4-operator, 20-voice, OPL-3 stereo FM music synthesizer.
- ✕ Expansion connector for Wave Blaster.
- ✕ Hardware compression and decompression.
- ✕ Sound Blaster compatible.
- ✕ Stereo digital/analog mixer
- ✕ Built-in 4 watts per channel amplifier.
- ✕ Software controls for volume, bass & treble tone, and input & output gain.
- ✕ Microphone and stereo line-in jacks.
- ✕ MIDI interface (Sound Blaster and MPU-401 UART modes).
- ✕ Windows 3.1, OS/2\* 2.0, and MPC compatible.
- ✕ Bundled software includes HSC InterActive™, PC Animate Plus™, Monologue™ for Windows, and more.

## WAVE BLASTER

A general MIDI add-on module to the Sound Blaster 16 ASP, Wave Blaster™ provides realistic instrument sounds instead of FM synthesized sound. Wave Blaster comes with 4 megabytes of sampled sounds and uses E-mu Systems Proteus technology to create great sounding music for business presentations and music composition.

Wave Blaster connects to the Sound Blaster 16 ASP through a 26-pin connector for a solution which is entirely inside your PC. Wave Blaster can be used with a MIDI instrument by connecting the MIDI device to the MIDI port of the Sound Blaster 16 ASP.

**\$249.95**

- ✕ General MIDI compatible.
- ✕ Uses wave-table synthesis to manipulate tones for high quality sounds.
- ✕ MIDI files require minimal hard disk space.
- ✕ Presets:
  - ✕ 128 instruments
  - ✕ 64 drums
  - ✕ 32 effects
- ✕ 16 MIDI channels.
- ✕ 32-voice polyphony.
- ✕ Bundled software included.

Wave Blaster requires an additional slot space next to the Sound Blaster 16 ASP.

## VIDEO BLASTER

Use Video Blaster™ to integrate video and audio from a wide range of sources—cameras, VCRs, and video discs—then combine them with VGA graphics. Cropping, scaling, masking and zooming capabilities make it easy to adapt captured and digitized images for any presentation.

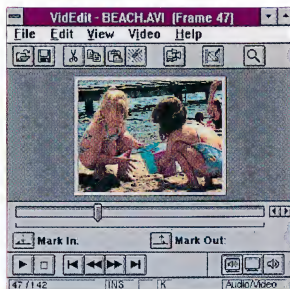

Video Blaster is the cost-effective answer to video in a VGA window. It is the perfect solution for quality image capture, security monitoring, interactive kiosks, training, and multimedia presentations.

**NOW  
INCLUDES**

### Microsoft® Video for Windows™

The latest in digital video software for your PC. Convert analog video into digital video. Capture, edit, voice annotate and add sound tracks to sequences then embed them into applications.

Includes VidCap, VidEdit, a CD-ROM of video clips and a QuickTime™ movie to AVI file converter.

**\$499.95**

- ✗ Display full-motion video in a window, overlay computer text and graphics on video.
- ✗ Display two million true colors on your standard VGA monitor.
- ✗ Freeze, store, manipulate, and import images from VCRs, video discs, video cameras, or any NTSC or PAL video source.
- ✗ Digital-analog sound mixer and programmable volume controls.
- ✗ Bundled software: Video Kit utilities including JPEG compression, MacroMind Action! presentation package, Tempra graphics and multimedia authoring system from Mathematica, and MMPLAY presentation package for integrating live video with animation.
- ✗ System requirements: VGA card with feature connector, not more than 15MB of system RAM
- ✗ Fits into *any* 16-bit slot.
- ✗ Windows 3.1 compatible.

- ✗ 386/33 or higher CPU required for Video for Windows.
- ✗ Sound card required to capture sound with Video for Windows.

*If you purchase a Video Blaster which does not include Video for Windows, contact the Sales Hotline to request an update. Proof of purchase required.*
